

HOW TO PROMOTE

Everyone starts as a **Consultant** and promotes up the company based on their **own effort**. The way we work out promotions is on the **volume of product** going through your business. Each product has a point attached called a QV and you have to hit a certain criteria to promote. You can track your QV totals online on your **webstats**. (Ask your sponsor to show you where these are) and there is more detailed information in the **Arbonne Success Plan**, which we highly recommend you read.

It is illegal for a promoter or a participant in a trading scheme to persuade anyone to make a payment by promising benefits from getting others to join the scheme. Do not be misled by claims that high earnings are easily achieved.
